

30 January 1957

MEMORANDUM FOR THE RECORD

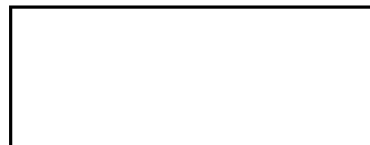

SUBJECT : Telephone Call from General Cabell

General Cabell called Col. Gibbs at 1:15 p.m. from Maxwell AFB and gave him the following information:

General Cabell has talked with General Twining and the latter has agreed to withdraw his objection to deployment of Detachment C to Japan. General Twining said that he would notify both Admiral Burke and Admiral Radford of this.

General Cabell believes that there should be a presentation given to the Joint Chiefs of Staff on the Project's results to date in order to generate more enthusiastic support for the next high level presentation. He thought the next presentation would be somewhere around 1 March 1957.

General Cabell feels that we should have a specific plan drawn up before the next presentation--we should make up our minds whether we want to make it high frequency or low frequency. Besides the tempo and coverage we desire, the plan should also include a statement on what we do if something happens--do we ride it out and keep on going?

J. A. GIBBS  
Deputy Project Director
